HLUMELA PRETTY NGINZI

1. Organisation Overview

Table

Organisation	Bright Future Youth Tutoring Centre
Industry	Education & Training / Tutoring Services
Location	Bizana, Eastern Cape, South Africa
Category	Educational Support & After-School Tutoring
Website Status	New Development Required
Website URL	To be confirmed Hlumela31/WEDE5020-PART2: css

1.1 Organisation Background

Bright Future Youth Tutoring Centre is an educational support organisation established to assist high school learners in improving their academic performance. The centre was founded to address a critical gap in local communities: the lack of accessible academic support for students outside of regular school hours. Many learners struggle with difficult subjects and fail to reach their potential simply because they do not have access to extra help, guidance, or resources.

The centre primarily serves learners aged 13 to 18, offering specialised tutoring in core subjects including **Mathematics, English, Life Sciences, and Computer Studies**. It provides a safe, supportive, and structured environment where students can ask questions, practice their work, and receive personalised guidance from qualified tutors. By focusing on both academic understanding and confidence building, the centre aims to help learners not only pass their subjects but excel in them.

1.2 Mission Statement

"To support students by providing quality tutoring and learning resources that help them succeed academically."

1.3 Vision Statement

"To create a future where every learner has access to the support and knowledge they need to reach their full potential."

1.4 Target Audience

- High school learners between the ages of 13 and 18 (Grades 8 – 12) who need extra help with school subjects.
- Learners who struggle with schoolwork or require additional reinforcement in difficult subjects.
- Parents and guardians seeking reliable, safe, and effective educational support for their children.
- Local schools and educators looking for external academic support partners.
- Community members and stakeholders invested in youth development and education.

2. Website Goals and Objectives

2.1 Motivation and Primary Goals

I chose Bright Future Youth Tutoring Centre because education is very important for the development of young people and communities. Many students struggle with their school subjects, especially Mathematics and Science, and they often do not have access to extra help. One of the biggest problems faced by small educational organisations is that people in the community may not know about the services they offer. Without proper promotion, many learners who need help may never find the tutoring centre.

Creating a website will solve this problem. The primary goals are:

- **Increase Visibility & Awareness:** Ensure that when parents or students search online for tutoring services or academic help in the area, Bright Future Youth Tutoring Centre is easily found.
- **Provide Key Information:** Share essential details such as subjects offered, tutoring schedules, contact details, and registration information clearly and easily.
- **Drive Enquiries & Registrations:** Make it simple for parents and learners to express interest, ask questions, or sign up for programmes.

- **Establish Credibility:** Present the organisation as a professional, reliable, and caring educational partner.
- **Improve Communication:** Serve as a central hub for announcements regarding classes, holidays, or programme updates.

2.2 Key Performance Indicators (KPIs)

The following KPIs will be used to measure the success and impact of the new website:

Table

KPI Metric	Baseline Target (Month 3)	Growth Target (Month 12)
Monthly Website Visitors	400 unique visitors	1,200 unique visitors
Contact / Registration Enquiries	15 submissions/month	45 submissions/month
Bounce Rate	Below 60%	Below 45%
Average Session Duration	1 min 00 sec	2 min 30 sec+
Search Engine Ranking	Top 15 for key terms	Top 5 for key terms
Mobile Traffic Share	55% of total traffic	65% of total traffic

Confidential | Page 3 of 10

3. Research and Comparative Analysis

To inform the website design and functionality, research was conducted on leading educational and tutoring platforms to identify best practices, features, and user expectations.

3.1 Competitor / Industry Analysis

Website 1: Khan Academy

- **Features:** Free online lessons, educational videos, practice exercises, progress tracking.
- **Content:** Comprehensive lessons and resources in Mathematics, Science, Computer Studies, and more.
- **Pages:** Home, Courses, About, Resources, Contact.

- **Functionality:** Highly user-friendly; visual and interactive learning tools; clear categorisation of subjects.
- **Key Takeaway:** The website must present information in an organised, easy-to-navigate manner. Visual aids and clear explanations are essential.

Website 2: [Tutor.com](https://www.tutor.com)

- **Features:** Online tutoring, live chat with tutors, student resources.
- **Content:** Information about tutoring services, subjects offered, and learning support.
- **Pages:** Home, About, Services, Resources, Contact.
- **Functionality:** Students can connect with tutors online and receive help with homework. Focus on accessibility and immediate support.
- **Key Takeaway:** Clearly explaining *how* the tutoring works and *how to enquire/sign up* is critical to building trust with parents and students.

Website 3: Varsity Tutors

- **Features:** Online tutoring sessions, practice tests, learning tools.
- **Content:** Includes tutoring services, test preparation, and academic support.
- **Pages:** Home, About, Subjects, Resources, Contact.
- **Functionality:** Allows users to find services and schedule sessions easily. Professional presentation with detailed service breakdown.
- **Key Takeaway:** Detailed pages dedicated to specific subjects help users find exactly what they need quickly.

3.2 Summary of Requirements

Based on this research and the organisation's needs, the website must balance professional credibility with a welcoming, encouraging tone. It should prioritise clarity, ease of navigation, and accessibility of contact and service information. **The focus is on converting visitors into enquiries, rather than acting as a repository of downloadable resources.**

4. Proposed Website Features and Functionality

4.1 Core Pages

Based on the requirements and research, the website will consist of the following key pages:

1. Home Page

- Introduction and welcome message explaining who we are and who we help.
- Overview of the centre's purpose and key benefits.
- Highlights of subjects offered (Mathematics, English, Life Sciences, Computer Studies).
- Clear Call-to-Action (CTA) buttons: *"Enquire Now"* or *"Contact Us"*.
- Announcements section for upcoming classes or schedule changes.
- Testimonials or success stories to build trust.

2. About Page

- Detailed background of Bright Future Youth Tutoring Centre.
- Presentation of the **Mission** and **Vision** statements.
- Information on the approach to learning and the qualifications/experience of tutors.
- Explanation of the problem being solved: lack of academic support and the solution provided.
- Information on the safe learning environment provided.

3. Services / Subjects Page

- Detailed list of subjects offered with descriptions of what support is provided for each:
 - **Mathematics:** Support for basic concepts, algebra, geometry, and exam preparation.
 - **English:** Reading, writing, grammar, comprehension, and literature support.
 - **Life Sciences:** Biology concepts, scientific terminology, and practical application.

- **Computer Studies:** Basics of IT, software usage, and theoretical concepts.
 - Description of tutoring programmes (e.g., weekly sessions, exam preparation, homework support).
 - Information on schedules, times, and grade ranges supported.
 - Explanation of the learning methodology.
4. **Enquiries Page** (*Replaces Resources focus*)
- Detailed information on how to register or book an assessment.
 - Frequently Asked Questions (FAQ) section addressing common concerns like pricing, session times, and class sizes.
 - Clear instructions on the next steps after making contact.
5. **Contact Page**
- Physical address and location map integration.
 - Contact details: Phone number, Email address.
 - Detailed enquiry / registration form for visitors to submit their details and questions.
 - WhatsApp button for instant messaging support.
 - Operating hours.

4.2 Key Functionality

- **Mobile-First Responsive Design:** Fully optimised for smartphones and tablets, as students and parents often browse on mobile devices.
- **SEO Optimisation:** Structured data, meta tags, and keywords relevant to "Tutoring Durban", "Maths Help", "High School Tutors", etc., to improve search rankings.
- **WhatsApp Integration:** Direct button allowing users to click and message the centre instantly.
- **Google Maps Integration:** To help visitors easily find the physical location of the centre.
- **News / Announcements Module:** Easy-to-update section on the homepage for schedule changes or holiday programmes.

- **User-Friendly CMS:** Content Management System (WordPress) allowing staff to easily update text or add announcements without technical knowledge.
- **Accessibility:** WCAG 2.1 AA compliant, ensuring the website is usable by all learners, including those with visual impairments.
- **Enquiry Management:** Form submissions sent directly to email with clear fields for Name, Grade, Subject, and Message.

Confidential | Page 5 of 10

5. Design and User Experience

5.1 Design Aesthetic and Branding

The design will reflect the core values of the organisation: **Education, Growth, Support, and Bright Futures**. The visual language will be encouraging, professional, and trustworthy, while remaining energetic and youthful.

Table

Design Style Modern, Clean, Educational & Inspiring

Inspiration Growth, Light, Knowledge, Stability

Aesthetic Clear layouts, plenty of white space, organised content, professional yet approachable.

5.2 Colour Scheme

Colours are chosen based on colour psychology suitable for education and youth development.

Table

Bright Blue (#165DFF)	Fresh Green (#36CFC7)	Warm Yellow (#FFC107)	Neutral Grey (#F5F7FA)
<i>Primary Colour:</i> Represents trust, intelligence, and clarity.	<i>Secondary Colour:</i> Represents growth, success, and learning.	<i>Accent Colour:</i> Represents energy, optimism, and a bright future.	<i>Background/Text:</i> Clean, readable, and modern base.

5.3 Typography

Fonts are selected for maximum readability and a modern, friendly feel.

Table

Primary Heading Font	Montserrat (Bold/Medium) – Clean, modern sans-serif for titles.			
Body Copy Font	Open Sans / Lato – Highly readable, friendly, and accessible for long text and study materials.			
Font Hierarchy	H1: 40-56px	H2: 28-32px	H3: 22-24px	Body: 16px

5.4 Layout and Design Approach

- **Clear Hierarchy:** Important information (Subjects, Contact) is always easy to find.
- **Card-Based Design:** Used for listing subjects to create distinct, clickable sections.
- **Visual Icons:** Simple icons representing subjects (e.g., Calculator for Maths, Book for English) to aid quick recognition.
- **Trust Signals:** Quotes or testimonials from parents/students prominently displayed.
- **Call to Action:** Buttons are distinct in colour (Yellow/Green) to stand out and encourage action.
- **Sticky Navigation:** Easy access to menu items as users scroll.

Confidential | Page 6 of 10

5.5 User Experience Considerations

- **Navigation:** Simple menu structure ensuring users can reach any page within 2 clicks.
- **Readability:** High contrast text, clear fonts, and adequate spacing – essential for an educational site.
- **Page Load Speed:** Optimised images and code to ensure fast loading, even on slower mobile connections common in South Africa.
- **Forms:** Simple but detailed enough enquiry forms to capture necessary information (Grade, Subject interest) to assist the centre in responding effectively.

- **Focus on Conversion:** Every page leads the user towards making contact or sending an enquiry.

5.6 Low-Fidelity Wireframes - Key Screens

Table

Page	Layout Description
Homepage	Top: Sticky navbar Hero: Heading "Unlock Your Potential", Subheading, "Enquire Now" & "Learn More" buttons Section: Introduction to the Centre Section: 3 Column Icons highlighting "Qualified Tutors", "Safe Environment", "Proven Results" Section: Grid view of Subjects offered Section: Testimonials / Success Stories Footer: Contact info & Links
Services Page	Top: Navbar Header: "Our Subjects" Grid Layout: Individual cards for Maths, English, Life Sciences, Computer Studies. Each card includes Image of our classes, Subject Name, Short description of support offered.
Enquiries / FAQ Page	Top: Navbar Header: "Enquiry here" Section: Step-by-step guide to registering. Section: Accordion style FAQ (Click to open answer). Section: CTA: "Still have questions? Contact us directly."
Contact Page	Top: Navbar

	Left Column: Contact details (Phone, Email, Address), Opening Hours. Right Column: Embedded Google Map + Detailed Enquiry Form (Name, Grade, Subject, Message). Footer
--	---

6. Technical Requirements

6.1 Hosting and Domain

Table

Domain Name	www.brightfutureyouth.co.za (or.org.za)
Domain Registrar	Domains.co.za or Afrihost (South African registrar recommended)
Hosting Type	Shared or Cloud Hosting – sufficient for the projected traffic and content volume.
Hosting Provider	Afrihost or Hetzner South Africa (local hosting ensures faster speeds).
SSL Certificate	Let's Encrypt or Comodo – mandatory for security and SEO ranking.
Email Hosting	Professional email (e.g., info@brightfutureyouth.co.za)
Backup	Daily automated backups with 30-day retention.

6.2 Technology Stack

Table

Frontend	HTML5, CSS
CSS Framework	Tailwind CSS / Bootstrap – for responsive and consistent styling.
CMS	WordPress – Industry standard, easy for non-technical staff to update content and announcements.
Integrations	Google Maps, WhatsApp Button, Contact Form 7 / Gravity Forms, Email integration.

Analytics	Google Analytics 4 + Google Search Console – to track visitor numbers and popular pages.
Accessibility	WCAG 2.1 AA compliance tools: Lighthouse audits.

Confidential | Page 8 of 10

7. Timeline and Milestones

The following project timeline outlines a realistic 12-week development schedule suitable for this scope of work:

Table

Phase	Milestone	Duration / Date
Phase 1	Project Kick-off: Finalise requirements, sign-off on scope	Week 1
Phase 1	Discovery & Research: Competitor analysis, content gathering	Week 2
Phase 2	Information Architecture: Final sitemap and navigation flow	Week 3
Phase 2	Wireframes: Layout designs for Home, Services, Enquiries and Contact pages	Week 4
Phase 3	Brand & Style Guide: Finalise colour palette, fonts, and iconography	Week 5
Phase 3	High-Fidelity Mock-ups: Visual design of all key pages for approval	Weeks 6–7
Phase 4	Frontend Development: Coding the website layout and responsiveness	Weeks 8–9
Phase 4	CMS Integration: WordPress setup, page building, and content upload	Week 10

Phase 5	Testing & SEO: QA testing, speed optimisation, and SEO setup	Week 11
Phase 5	User Acceptance Testing: Client review, training session, and feedback	Week 11
Phase 6	Launch Preparation: Domain connection, DNS migration, SSL setup	Week 12
Phase 6	Post-Launch Support: Bug fixes and handover documentation	Week 13

Confidential | Page 9 of 10

8. Budget Estimate

The following budget estimate is based on current South African market rates. All amounts are in South African Rand (ZAR) and inclusive of VAT.

Table

Category	Description	Estimated Cost (ZAR)
Discovery & Planning	Project research, sitemap creation, and content strategy	R 4,500.00
Design	UI/UX design, wireframes, style guide, and page mock-ups	R 12,000.00
Development	Frontend coding, WordPress installation, theme development & form logic	R 18,500.00
Integrations	Contact forms, Google Maps, WhatsApp button, and email setup	R 3,500.00
Content	Image sourcing/editing, formatting of text and FAQ content	R 3,000.00
SEO Setup	On-page SEO, Google Business Profile setup, sitemap submission	R 3,000.00

Testing	Cross-browser/device testing, speed optimisation, and accessibility checks	R 2,500.00
Hosting & Domain	Hosting (1 year), Domain registration (2 years), SSL Certificate	R 1,800.00
Training	CMS training for staff members (how to update content/announcements)	R 2,000.00
Maintenance	3-month post-launch support and security updates	R 4,500.00
	TOTAL ESTIMATED BUDGET	R 55,300.00

Budget Notes:

- Ongoing maintenance after the initial 3-month period is estimated at **R 600 – R 900 / month**.
- Professional photography of the centre or tutors is optional and estimated at an additional **R 3,500** if required.
- Paid advertising (Google Ads, Social Media Ads) is recommended as a separate marketing budget to drive traffic to the new site.
- All quoted amounts are estimates; final pricing is subject to formal scope agreement.
